on the ground floor in the welcome area in front of “the teachers’ room”

We are waiting for you!

What it is for

No parents have to feel alone facing questions and doubts deriving from situations and experiences at school. Sometimes we don't know how to find answers or solutions, or who to ask.

What its purposes are

To maintain a positive climate of trust among parents, teachers and the headmaster by activating all the possible synergies.

***“Speaking is a way to express yourself to others,
listening is a way to welcome others into yourself”***
